Shanghai / Hangzhou | niexiongtao@gmail.com | +44 7907 306006

PROFILE

MSc Computer Animation and Visual Effects student at Bournemouth University NCCA and Technical Artist (Animation & Rigging) at Yotta Games. I focus on animation and rigging tooling, pipeline improvement, and cross-project technical support. Previously, I worked as a 3D Animation & Rigging Intern at iDreamSky on Subway Surfers. My technical foundation includes Maya, Python, MEL, and production-facing tool adoption.

EXPERIENCE

Technical Artist (Animation & Rigging)

Sep 2, 2026 - Present

Yotta Games | Shanghai, China

- Develop reusable scripts and tools for animation and rigging teams as a central technical support function, covering production assistance, data processing, and workflow automation.
- Improve animation and rigging pipelines to reduce repetitive work and delivery friction while strengthening production efficiency and standards.
- Partner with project teams to clarify production needs and translate workflow pain points into practical technical solutions, tool features, and working standards.
- Provide onboarding, documentation, and day-to-day support for new tools so animators and riggers can adopt them quickly and use them reliably.

3D Animation & Rigging Intern

Jul 2023 - Nov 2023

iDreamSky | Shenzhen, China

- Rigged characters, skateboards, and accessories for Subway Surfers, ensuring natural deformation and smooth motion.
- Created keyframe animation sets including run, jump, and interaction sequences to improve character appeal and player immersion.
- Managed rendering pipeline tasks and sequence-frame output to maintain consistent visual quality for in-game assets.
- Optimized skeletal structures and skin weights to support believable motion for complex decorative props.

EDUCATION

MSc Computer Animation and Visual Effects

Sep 2025 - Present

Bournemouth University, NCCA | Bournemouth, UK

Ranking: Top 3%

Key modules: Animation Software Engineering, CGI Techniques, Pipeline and Technical Direction, Simulation and Rendering, Linear Algebra and Analytic Geometry.

The ScreenSkills-recognized NCCA program combines computer science and artistic production, with training in Python-based tools and plugins, graphics mathematics, simulation algorithms, rendering, and industry VFX pipelines.

BA Animation and Visual Effects

Sep 2020 - Jul 2024

Zhongnan University of Economics and Law | Wuhan, China

Ranking: Top 10%

Key modules: Lighting and Texturing, Animation VFX, Rigging, 3D Game Modeling, Animation Directing, Concept Design.

A Sino-Korea program with Dongseo University using a 3+1 model across 3D animation, VR content, VFX, and digital imaging pipelines. Awarded a BA from Zhongnan University of Economics and Law and a BE from Dongseo University.

SKILLS

Focus	Character Animation, Rigging, Tool Development
Tools	Maya, Unreal Engine, MotionBuilder
Languages	Python, MEL, GLSL

LANGUAGES

Chinese	Native
English	Proficient
Korean	Intermediate
